ment, namely a mortgage for five years, payable at three months notice, provided the loan was a sterling one at 4/. This was refused, but the former offer was renewed by the defendants. Subsequently in a letter dated August 4th Mesars Sharp Toller and Johnson made another proposal of an entirely different character. This was declined by the defendants, who again, August 13, proposed to confirm their previous offer. To this no answer was given. Previous to this proceeding, discussions of a hostile and angry character had arisen between Mrs Cands and Mr Forbes, the executrix and executor jointly of the estate of the late Geo. U. Sands, and a bid had been filed by Mrs Sands and her daughter against Mr Forbes, neeking to | Chairman, Mr Keswick, and Mr Hoppius, a charge him with losses, and steps had been taken to have the estate administered under the direction of the Court. The Chief Justice, soxious to make the best terms for Mrs Sands and her daughter and also auxious to relieve the Court from managing a yery troublesome property and business, determined to seek a personal interview with Mr Keswick, the Chairman of the Company, with a view to bringing the negotiations to a close. There was at the time a debt of \$70.000 from the estate to a Bank. They met once or twice. Mr Keswick spoke to twice; the Chief Justice could not say they had met more than once. At any rate, for various reasons he had thought it Saturday, Aug. 30, the Chief Justice | advisable to set forth at this length. His saw Mr Keswick and told him that the \$150,000, part to be paid down, and part to be left on mortgage at 8 per cent. Keawick said in his evidence that he was under the impression that the Ohlof Justice was accominted with the former correspondence which had passed, and the offers that had been made by the Company, but this was not so; the Chief Justice was ignorant of them, he was only anxious to bring about a settlement, having other views as to how the property could be disposed of should no advance be made by the Company on their offer of \$140,000. The same afternoon the Chief Justice was at the Cipb, and Mr Gillies, who obtained a reluctant consent from Directors to give \$150,000, was instructed to go to the Club to inform bis Lordship.

Mr Johnson was sent for by some one Mr Wotton was also there, whether by accident or design did not appear; and so a sort of informal meeting took place. On October 4, in pursuance of art. 9 of the agreement, the vendors assigned by deed the whole of the property to the defendants in consideration of the sum \$150,000, of which \$75,000 was paid at the ume. The deed was executed by the Acting Scoretary of the Company, and by the Director, both atill unconscious of terms the agreement contained. fendants caused the assignment to be registered at the Land Registry Office, thus perfecting their title and then took position of the property thus sequired and proceeded to deal with it. > Japan. (Gazette.)

We believe there is a quantity of not less than 60,000 piculs of Saigon rice now in Yokohama, for which there is no prospect of speedy or profitable sale. The holders or speculators in Japan rice have taken the precaution of spreading a report to the effect that the consumption of China rice will assuredly produce cholera. So great is the fear of that disease that the silly report has seriously prejudiced the

sale of the rice now on hand. We learn with great regret that Mrs. Mourilyan, who left here en route for England, with Mr. Mourilyan and family by the City of Tokio on the 18th May, died on Saturday last at Salt Lake City. The in one of two capacities: cause is said to have been an attack of inflammation of the lungs. The deceased lady was well known and highly esteemed, and great sympathy will be felt for Mr. Mourilyan in his affliction.

Among the arrivals by the Gaetic on the 12th instant was Mr. John Walter, who resumes charge of the Hongkong and Shanghai Banking Corporation at this port. Mr. Walter is so generally known and esteemed that his return will be bailed with pleasure and satisfaction, though it is but scant justice to say that the acting management of Mr. Haselwood has made the latter gentleman exceedingly popular and that all would like to hear of his permanent promotion to a post for which his business capacity and unvarying courtesy

eminently fit him. We are told a story that certainly seems wholly incredible because of its gross absurdity. It is this:--the government have stationed two officers at the exchange Shosha in Yokohama with express instructions to arrest the directer of the Shosha and lodge him in prison in event of the depreciation of currency exceeding a certain the standard being an arbitrary rate tive of the laws of supply and domand Ridiculous as this scheme seems to be stranger things have been done by officials in their perpetual and vexatious interference with everything that does not concern them. The quotation of to day for rice in Tokio is said to be yen 121 per koku, which means, in accordance with the laws of commerce, an exchange for currency of 167 instead of 187. An illustration may given. Saigon rice can be laid down here at about \$6.00 per koku, and with an allowance of 25 per cent, for superiority of grain the price of a koku of Japan rice yen 12.50 now current signifies, when taken last crops, a currency rate of 167, or 30 worse than the sham quotation assessed by officials at the monopoly exchange shop. It is very openly stated that a bond fide offer of ten thousand yen satsu for would at once depress the rate from 187 to 145; that is, there are no buyers at the quotation of the day. Foreign merchants, however, do not hold satsu, and it is more than the liberty of any Japanese subject is worth to offer such a quantity of paper money for sale as would have the effect of exposing the hollow and utterly false value

tion put upon it by the officials. Yokosuka was the scene of a conflagra tion last night, (15th) 150 houses being destroyed. A fire in Tokio, last night also, rendered thirty-nine families homeless. At about 3.80 this morning (16th) a fire broke ont in Ogimachi which speedily spread and was not got under control until a large number of houses had been consumed There was no wind at the time otherwise there would have been considerable de struction of property as the district consists of a collection of very lightly built wooden
